mern stack development Resume

Professional Summary

**

Eager and dynamic freshman with a passion for creating impactful applications using the MERN stack. Demonstrated proficiency in Flutter, possessing an innate ability to learn rapidly and adapt to new technologies effectively. A successful hackerathon participant who not only won multiple challenges but also contributed significantly as part of my college team SRM at SRM Institute of Technology.

SKILLS:
- MERN Stack Development (Node.js, Express, MongoDB, React)
- Flutter Application Design and Coding
- Excellent Problem Solving Skills with a Focus on Performance Optimization
- Proficient in JavaScript ES6+ Syntax and Best Practices
- Strong Familiarity with Git Version Control System for Collaborative Development
- Adept at Responding to Real-time Event Data through Backend Management (Event Driven Architecture)
- Experience using Redux and Context API for State Management in React Applications
- Understanding of RESTful APIs, GraphQL Queries/Mutations, WebSockets Communication
- Knowledgeable about Docker Containerization to Create Deployable Application Packages (Dockerfile)

EXPERIENCE:
Freshman with a remarkable hackerathon record at SRM College. Active member of the college team "SRMIERN" that won multiple hackathons by developing innovative solutions using MERN stack technology. Played pivotal roles in project planning, frontend and backend development, database designing, testing, debugging, deployments, user interface enhancements, performance optimizations, as well as team collaboration efforts during the event duration within a competitive environment against other colleges nationwide.

EDUCATION:
Bachelor of Technology (Engineering) in first year at SRM Institute of Technology, Chennai specializing in Computer Science and Engineering with an emphasis on software development using MERN stack technologies. Passionate about Flutter applications designing coupled with strong foundational skills developed during my academic coursework to excel as a developer for future job roles within the tech industry.
